

SOP 14 - Prevention of the Introduction of Infectious Disease by Family, Employees, Farm Visitors and Service Providers

*SOP must contain enough information to ensure that staff understand the measures that are taken on your farm to prevent the spread of infectious diseases. Items in **bold** are required/mandatory items.*

- **Prior to entering the production unit, ALL visitors are required to have (check all that apply):**
 - **clean (wash and disinfected) boots (at a minimum)**
 - disposable boots
 - overshoes
 - clean coveralls

- **List other biosecurity measures for visitors and service personnel to follow, depending on the level of risk that each visitor could pose (if applicable):**

- **Disposable boots and coveralls are to be disposed of in the following location:** _____
- **Provide and maintain a washing station (hands, boots) that can be used prior to entering the production unit. This is located**

The following are other practices that you may implement. Check those that are implemented on your farm:

- Plan ahead for all visits by requiring visitors to make appointments. Inform visitors of biosecurity requirements
- Keep a record of all visitors and deliveries
- Designate a specific parking area for visitors and employees
- Ensure that all farm workers (including yourself and family members) use farm dedicated clothing and footwear
- Require all coveralls to be cleaned on a routine basis
- Identify other biosecurity practices that are implemented on your farm:
